ACKNOWLEDGEMENT

The foundation for any successful venture is laid out not just by the individual accomplishing the task, but also by several other people who believe that the individual can excel and put in their every bit in every endeavor he/she embarks on, at every stage in life. And the success is derived when opportunity meets preparation, also supported by a well-coordinated approach and attitude.

I would like to express my sincere gratitude to the respected principal **Dr. T N Sreenivasa**, for providing a congenial environment to work in. I also like to express my sincere gratitude to **Dr. Aishwarya P,** Head of Department, Computer Science, for her continuous support and encouragement.

I am indeed indebted to **Mrs. Keerthi P**, coordinator and guide for his continued support, advice and valuable inputs during the course of this internship work. Last, but not the least I would like to thank my family, who has acted as a beacon of light throughout my life.

My sincere gratitude goes out to all my comrades and well-wishers who have supported me through all the ventures.

EXECUTIVE SUMMARY

This internship Kaggle(Python) was a 3-day internship program. It aimed in training the interns and making them ready to face the corporate world. It included a well- prepared structure of the training program that included few basic concepts. . In this course we were imparted knowledge about various fields where the bots are deployed to perform repetitive tasks efficiently and uninterrupted.

This internship further aimed at providing a complete in-depth knowledge about the various technologies used by their company which would make their tasks easier to take the interns further into their company as employees. Various technologies that are a hot topic and used in completing their certifications. Various new techniques and easier way to learn and get the complete knowledge about the topic was imparted.

This internship included not only technical benefits but added on to contribute further to my personal development and has been a very useful experience for me. I gained new knowledge and skills and I achieved many of my learning goals.

CHAPTER 1

ABOUT THE COMPANY

1.1 Introduction

Kaggle, a subsidiary of Google LLC, is an online community of data scientists and machine learning practitioners. Kaggle allows users to find and publish data sets, explore and build models in a web-based data-science environment, work with other data scientists and machine learning engineers, and enter competitions to solve data science challenges. Kaggle got its start in 2010 by offering machine learning competitions and now also offers a public data platform,a cloud-based workbench for data science, and Artificial Intelligence education.

1.2 History of the company
