CERTIFICATE

Certified that this internship work entitled "**ROBOTIC PROCESS AUTOMATION**" presented by "**ROHITH H CHAVAN**" "**1AT21CS086**" of Atria Institute of Technology, Bangalore in partial fulfillment for the award of Bachelor of Engineering in Computer Science and Engineering of Visvesvaraya Technological University, Belagavi during 2020-2021. It is certified that all corrections/suggestions indicated for Internal Assessment have been incorporated in the report deposited in the department library. The internship report has been approved as it satisfies the academic requirements with respect to internship report as prescribed for the said Degree.

Go be great.

COMPLETION OF TRAINING

21/10/2022

ROHITH H CHAVAN

Congratulations on completing
"Automating String Operations: Methods to Manipulate and Extract Strings"
course at Automation Anywhere University.

With this training you have acquired skills and knowledge that will allow you to continue your journey to Robotics Process Automation success.

At Automation Anywhere, we believe that people who have more time to create, think, and discover build great companies. We wish you continued success in all your endeavors.

Go Be Great!

CONTINUE YOUR LEARNING

DECLARATION

I, **ROHITH H CHAVAN(1AT21CS086)** hereby declare that this internship work titled **"ROBOTIC PROCESS AUTOMATION"** is carried out under the guidance of **Mr. PALLAVI N** Assistant Professor, Dept. of CS&E. This internship work is submitted to Visvesvaraya Technological University in partial fulfillment of the requirement for the award of degree of **Bachelor of Engineering in Computer Science & Engineering** for the academic year 2020-2021.

Place: Bangalore

Date:

Signature of Student

ACKNOWLEDGEMENT

The foundation for any successful venture is laid out not just by the individual accomplishing the task, but also by several other people who believe that the individual can excel and put in their every bit in every endeavor he/she embarks on, at every stage in life. And the success is derived when opportunity meets preparation, also supported by a well-coordinated approach and attitude.

I would like to express my sincere gratitude to the respected principal **Dr. T N Sreenivasa,** for providing a congenial environment to work in. I also like to express my sincere gratitude to **Dr. Aishwarya P,** Head of Department, Computer Science, for her continuous support and encouragement.

I am indeed indebted to **Mrs. PALLAVI N,** coordinator and guide for his continued support, advice and valuable inputs during the course of this internship work.

Last, but not the least I would like to thank my family, who has acted as a beacon of light throughout my life.

My sincere gratitude goes out to all my comrades and well-wishers who have supported me through all the ventures.

EXECUTIVE SUMMARY

This internship at Robotic Process Automation was a 3-day internship program. It aimed in training the interns and making them ready to face the corporate world. It included a well- prepared structure of the training program that included few basic concepts from Automation360. In this course we were imparted knowledge about various fields where the bots are deployed to perform repetitive tasks efficiently and uninterrupted. The bots developed in Automation 360 are used by top companies like SAP for improving the automation processes.

This internship further aimed at providing a complete in-depth knowledge about the various technologies used by their company which would make their tasks easier to take the interns further into their company as employees. Various technologies that are a hot topic and used in completing their certifications. Various new techniques and easier way to learn and get the complete knowledge about the topic was imparted.

This internship included not only technical benefits but added on to contribute further to my personal development and has been a very useful experience for me. I gained new knowledge and skills and I achieved many of my learning goals

CHAPTER 1

ABOUT THE COMPANY

1.1 Introduction

RPA stands for Robotic Process Automation. Automation Anywhere is an American global software company that develops robotic process automation software. With RPA, software users create software robots, or "bots", that can learn, mimic, and then execute rules-based business processes. RPA automation enables users to create bots by observing human digital actions. Show your bots what to do, then let them do the work. Robotic Process Automation software bots can interact with any application or system the same way people do-except that RPA bots can operate around the clock, nonstop, much faster and with 100% reliability and precision

1.1 History of the company

Automation Anywhere was originally founded as Tethys Solutions, LLC in San Jose, by Mihir Shukla, Neeti Mehta Shukla, Ankur Kothari and Rushabh Parmani. The company rebranded itself as Automation Anywhere, Inc. in 2010. As of early 2021, the company reported some 2,800 client firms around the world.

Founded	2003; 19 years ago
Founder	Mihir Shukla, Neeti Mehta Shukla, Ankur Kothari, Rushabh Parmani
Headquarters	San Jose, California, U.S.

Products and Services

Automation Anywhere Enterprise (RPA); IQ Bot; Bot Insight; BotFarm; Bot Store;Mobile App

Automation Anywhere has dedicated the last decade to driving the adoption of robotic process automation technology in leading Financial Services, Healthcare, Technology and Insurance companies across more than 90 countries
