PROFILE

Quick-learning cybersecurity candidate with a Sheffield MSc dissertation on credential threats, security controls and residual risk. Completed the Google Cybersecurity Professional Certificate; seeking a junior Security Operations Centre (SOC) or Governance, Risk and Compliance (GRC) role.

EDUCATION

MSc Cybersecurity and Artificial Intelligence | University of Sheffield | 2025-2026

Coursework and dissertation completed; final results awaited.

B.E. Computer Science | Atria Institute of Technology, India | 2021-2025 | CGPA 7.74/10

ACADEMIC PROJECT

Implementing a Password Manager | University of Sheffield, MSc dissertation

- Continuing the project; analysed credential-exposure risks after vault unlock, including a compromised interface.
- Built a Windows password manager with a separate vault broker and single-use approvals scoped to one action and record.
- Documented controls including Argon2id and AES-256-GCM, and residual risks after credentials are copied or revealed.
- Reported 305 passing automated tests (7 skipped) and five security properties verified in a simplified Tamarin model.

RELEVANT SKILLS AND COURSEWORK

Security concepts: Threat modelling; security controls; access control; residual risk; technical documentation.

Google coursework: Security information and event management (SIEM); intrusion detection systems (IDS); incident detection and response; security risk management; Linux and SQL.

Project technologies: Python (beginner), PySide6 and Tamarin symbolic modelling.

CERTIFICATIONS AND TRAINING

Google Cybersecurity Professional Certificate | Google via Coursera | February 2024 | Verify

AI DevOps Engineer - Skill Competency Assessment | IT-ITeS Sector Skill Council | 2025

AI-DevOps on-the-job training | Rooman Technologies | 15-28 March 2025

Python Fundamentals and Windows PowerShell | Infosys Springboard | 2023

EXPERIENCE

Safety Steward | IPM Group | October 2026 | One-off assignment

- Guided spectators and monitored an assigned area at Rotherham United Football Club.

Full Stack Web Development Intern | Varcons Technologies | 27 October-1 December 2023

- Contributed to a team language-learning website through web-page design and database work.
